Work Experience

Fluent Grid Limited

Software Engineering Intern

May 2025 to July 2025

Ranchi, India

- Engineered backend workflows for a billing system managing 100,000 monthly transactions.
- Streamlined SQL query execution, resulting in a 30 percent reduction in data retrieval latency.
- Developed automated data validation scripts using Python, improving processing accuracy by 15 percent.

Technical Projects

Learno Learning Platform, React, Node.js, MongoDB

- Architected a scalable full-stack application for 1,000 active users with secure authentication.
- Enhanced RESTful APIs through optimized middleware, decreasing response times by 30 percent.

Smart AI Resume Optimizer, Python, LangChain, OpenAI

- Devised an AI engine to boost matching performance by 90 percent using prompt engineering.
- Integrated Vector Similarity Search to reduce customization time to under 10 seconds.

SnapChef Recipe Generation AI, Computer Vision, Streamlit

- Orchestrated a generative system handling 500 daily requests via ingredient recognition.
- Live Demo: <https://snapchef-mu.vercel.app/>

Environment Impact Analyzer, React, Express, MongoDB

- Developed a sustainability scoring engine to analyze real-time environmental metrics for reporting.
